Don't just live here. Shape it.

~

Welcome to *The Nagrik*

ABOUT

Nagrik is a student-led civic literacy initiative built to bridge the gap between academic civics and real-world impact. We break down the complex worlds of law, governance, public policy, and democratic institutions into clear, engaging, and practical knowledge for young minds. (KNOW MORE BUTTON)

WHY CIVIC LITERACY?

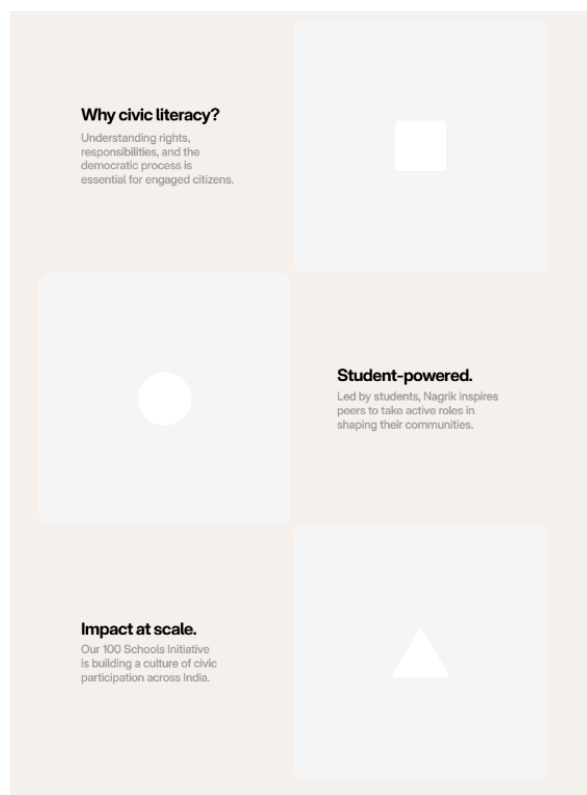

Understanding rights, responsibilities, and the democratic processes is necessary for every citizen.

STUDENT-POWERED

Led by Students, Nagrik inspires peers to take active roles in shaping their communities

OUR MISSION

To advance civic literacy among young Indians by making law, governance, public policy, and citizenship accessible and engaging.

After this, add a FEATURE SECTION to feature our content from the BLOG AND PROJECTS PAGE

Become a champion for civic literacy.

ABOUT PAGE

Introduction

India is the world's largest democracy. Yet for many young Indians, civic knowledge remains confined to textbooks, examinations, and theoretical discussions. Concepts such as constitutional rights, public institutions, governance, policymaking, and citizenship are often studied, but rarely understood in a practical and meaningful way.

Nagrik is a student-led civic literacy initiative dedicated to making law, governance, public policy, and citizenship understandable and accessible to young Indians. We seek to bridge the gap between academic civics and active citizenship by making law, governance, public policy, and democratic institutions understandable for young people.

Our Core Principles

Accessibility

Knowledge about governance, law, and citizenship should be understandable to everyone, regardless of background.

Non-Partisanship

Nagrik does not endorse political parties or political candidates. Our focus remains on civic education, institutional understanding, and informed participation.

Critical Thinking

We encourage students to question, analyze, and engage with public issues thoughtfully and responsibly.

Service

Citizenship is not only about rights; it is also about contributing positively to society and one's community.

Our Mission Statement

To build a generation of informed citizens who understand their rights, value their responsibilities, and participate meaningfully in India's democracy.

A future where every student graduates not only as a learner, but as an informed citizen.

Beyond Civics. Towards Citizenship.

SCHOOL PAGE

(Hero)

Bringing civic literacy beyond textbooks.

Why Schools?

Every student learns about democracy. Few learn how to engage with it.

Nagrik works with schools to make civic learning practical, relevant, and accessible. By introducing students to governance, constitutional values, rights, duties, and public institutions, we aim to cultivate informed citizens prepared to participate in society beyond the classroom.

Because citizenship should not begin after graduation—it should begin in school.
